PL-L Base

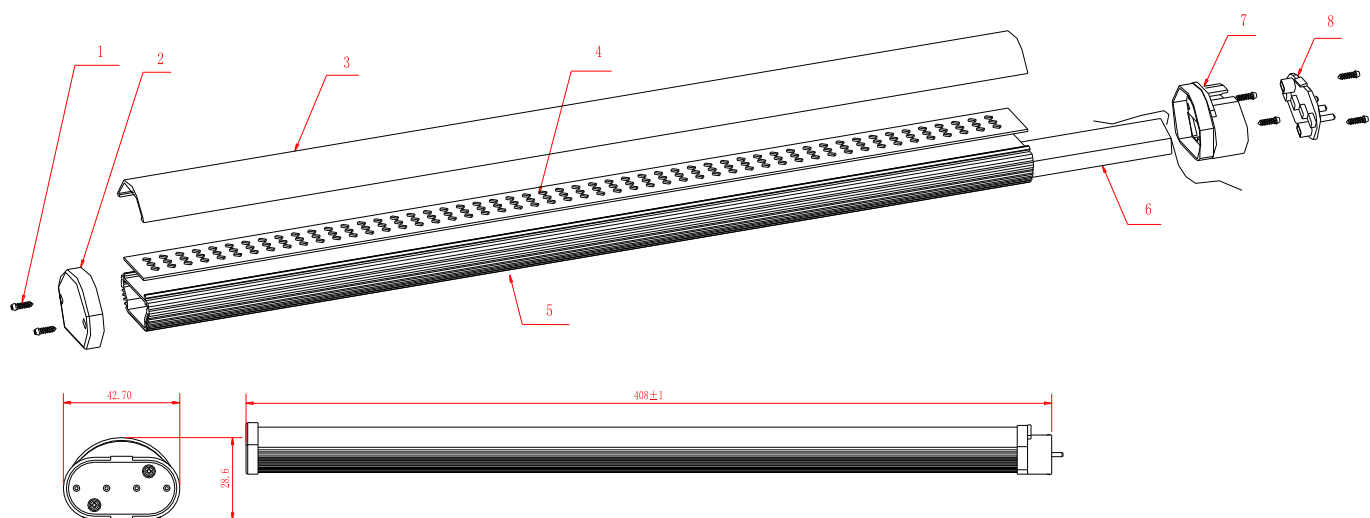

Application of LED tube

Easy to installation, take off the old tube and put the LED PL-L tube , save energy up to 50%, 5 times than regular tube。 Almost no maintenance cost, Application : office, home lighting, park, shopping mall, school

LED PL-L

1. Electricity transfer to light up to 90%, no waste of energy
2. Working voltage : AC85-265V, Adapt to all the world voltage range
3. Conform to PF>0.9 of US Energy Star's need
4. Light soft, no flash, comfortable, no noisy
5. Strong structure to safer, even drop off the ground, no impact to use
6. Certificates : CE ROHS

Parameters of LED PL-L tube

— Electrical Parameters

Length(M)	Input voltage	power (W)	PF	size
0.408	AC85-265	16	0.95	408*42.7*28.6

二 Optical Parameters

Lumen(LM)	Light effect	CRI	LEDs	Light source
1150	80 LM/W	>70%	156	SMD 3014

Comparison with traditional lamp

LED PL-L	8W	12W	15W	18W	20W
Traditional lamp	18W	24W	36W	44W	55W
